Forecast For Northern Ireland
Issued by Met Office Aberdeen
at 0400 on Wednesday 05 May 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Sunshine and showers. Seasonally cold.

Today:
Seasonally cold in north to northwest breezes. Early frost for some away from northern coasts. Showers mainly focused north of Lough Neagh at first, before bubbling up more widely across the rest of the Province for afternoon. Maximum temperature 11 deg C (52 deg F).

Tonight:
Showers occasional early evening, dying away to only a few light outbreaks from late evening. Winds easing light, combining with clear spells to bring a frost to most come dawn. Minimum temperature -3 deg C (27 deg F).

Thursday:
A day of sunshine and occasional showers, perhaps thundery during the afternoon. Winds north to northwest, increasing fresh to strong. Maximum temperature 12 deg C (54 deg F).

Outlook for Friday to Sunday:
Sunshine and showers for Friday, with outbreaks focus during the afternoon. Mainly dry, bright start for Saturday, then gales and rain spreading from south later. Rain or showers for Sunday.
